

## *It's Your Journey.*

---

At your next virtual or in-person appointment, talk to your doctor about Ocrevus, and ask them some of these questions:

What is Ocrevus and what is it used for?

How does Ocrevus work?

Who is Ocrevus for?

Can I easily switch to Ocrevus?

How is Ocrevus dosed?

What medications am I currently taking?

What results can I expect to see from Ocrevus?

Is Ocrevus right for me?
